PRODUCT DESCRIPTION

Designer: Joan Gaspar

Marset Roc LED Ceiling / Wall Light

Marset Roc LED Ceiling / Wall Light is an IP65 wall and ceiling light by Joan Gaspar, made with a pressed glass diffuser and aluminium structure. The glass shade has a wavy, irregular surface that softens the LED behind it, giving the fitting more texture than a standard diffuser. Roc can be used indoors or outdoors, with a compact shape that sits close to the wall or ceiling.

The range includes Roc Mini, Roc, and Roc Plus, with each size available in Black or White. Roc Mini works well where a smaller fitting is needed, while Roc and Roc Plus give more presence on larger walls, ceilings, and exterior surfaces. Each version includes a filter to reduce glare and screen the light, which is recommended for wall installation and can be removed when the fitting is used on a ceiling.

Roc is hardwired and dimmable, with the Roc and Roc Plus versions using Triac dimming. Roc Mini uses a separate remote power supply, which will need to be housed in the wall or ceiling, and it can also be recessed with a separate accessory if required. Most suited to hallways, bathrooms, entrances, stairwells, exterior walls, patios, hotels, restaurants, and commercial spaces where a compact IP65 wall or ceiling light is needed.

Please Note: The Roc Mini uses a separate remote power supply that will need to be housed in the ceiling or wall. The Marset Roc LED Ceiling / Wall Light can also be supplied with DALI-2 dimming and 3000K options. Please contact us for more information and pricing.

PRODUCT SPECIFICATION

Light Source: **Roc Mini:** 2.9W, 2700K, 109 Lumens
Roc: 9.5W, 2700K, 421 Lumens
