PRODUCT DESCRIPTION

Designer: AC Studio

Aromas Del Campo Miro Suspension

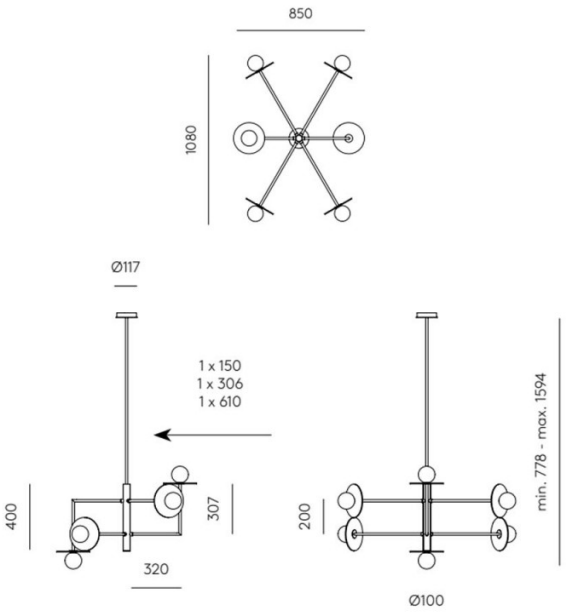

The Aromas Del Campo Miro Suspension was designed for decorating large spaces and pays homage to the painter of the same name. Miro boasts a steel structure in matte black with six light sources, each light source is encapsulated by an opal glass shade which diffuses the illumination. This unique arrangement was designed by AC Studio and combines both circular and linear shapes, resulting in a playful light source with a sculptural quality.

Aromas Miro Suspension is a modern day chandelier with a playful twist, it also allows the user to adjust the height depending on their environment. The discs behind the opal shades work as reflectors and can be utilised to project the illumination out into the room, resulting in an even glow over your space.

Discs available in a range of materials: Alabaster, Ceramic, Stripped Metal or Glass.
