PRODUCT DESCRIPTION

Designer: Pepe Fornas

Aromas Del Campo Ison LED Wall Light

The Aromas Del Campo Ison LED Wall Light was designed by Pepe Fornas, with the purpose of creating decorative lighting in interior spaces. Aromas Ison Wall Light is installed vertically and boasts a steel structure with an integrated LED light source in the form of a strip. The LED strip is protected by a fluted glass; the result is a soft illumination which is diffused through the textured surface of the glass, providing ambient lighting.

The high quality materials that Ison utilises and the elegance of the two finishes evokes memories of a time in which style was timeless. Ison adapts well to a range of different furnishing styles, whether classic or contemporary, in each case Ison immediately turns heads and becomes the star of the show.
