The Gamma Pendant Light was designed by AC Studio in 2019 as part of a wider collection for Spanish lighting manufacturer Aromas Del Campo. Gamma by Aromas is an original and versatile design, providing a unique lighting solution which can be installed in an array of settings, from bedrooms in residential homes to large commercial spaces.

Gamma takes simplicity to a whole new level. Featuring two hemispherical metal shades, one of which projects the light and one of which adds an aesthetic aspect. The light source of the Gamma is projected downwards by the hemispherical shade, resulting in a soft and glare-free downlight. This makes the Aromas Gamma Pendant perfect for above dining areas and kitchen counters in your home.
