PRODUCT DESCRIPTION

Designer: Foster and Partners

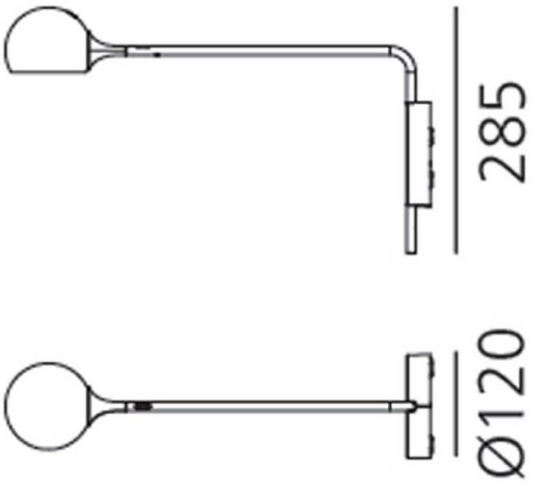

Artemide Ixa LED Wall Light

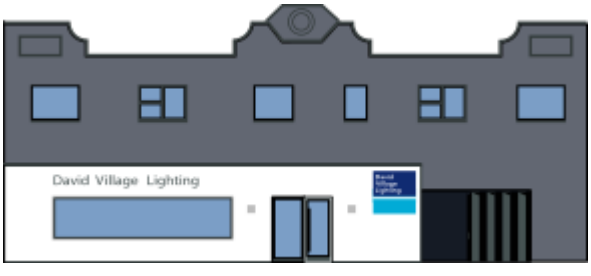

Inspired by Alexander Calder's sculptures, Artemide Ixa LED Wall Light interprets the idea of 'elegant balance' through precision engineering. Ixa brings light to where it is needed and encourages the user to interact with the lamp. The Ixa LED Wall Light provides a diffuser that can freely rotate but is only connected to the frame by a magnet, granting you the ability to project the light in any direction. Ixa offers an impressive 360° freedom of movement thanks to its sophisticated construction.

The Ixa LED Wall Light was developed by Foster & Partners for Artemide; it impresses with its clear, modern design whilst symbolising functional, productive and sustainable intelligence. Ixa Wall Light is ideal next to your sofa in the living room, in your kitchen, or as a work light in your office or studio. The minimalistic design blends into a wide range of interior styles.
