PRODUCT DESCRIPTION

Designer: Foster and Partners

Artemide Ixa LED Reading Floor Lamp

The Artemide Ixa LED Reading Floor Lamp is a contemporary lighting solution which allows complete freedom of movement due to the construction of its lamp head. The light source is only attached to the body of the lamp by means of a magnet, and can easily be removed and rotated to direct the illumination in any direction. Ixa Reading Floor is ideal as a reading light next to the sofa in the living room, but also as a work light in the office or studio.

The Ixa LED Reading Lamp was developed by Foster & Partners for Artemide and showcases a modern design and symbolises functional, productive and sustainable intelligence. Artemide Ixa Reading Floor Lamp is characterised by its ability to serve multiple lighting scenarios - from bright task lighting to a decorative and atmospheric illumination. Available in a range of colours, whether you require more muted tones or a bright pop of colour, the Ixa is sure to make a statement in your space.
