PRODUCT DESCRIPTION

Designer: BIG

Artemide Vine LED Spot Light

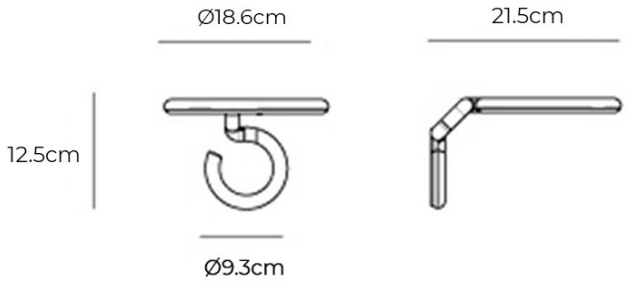

A more compact version of the **Vine Wall Light**, the Artemide Vine Spot boasts a smaller frame without any detriment to the light output. This wall light combines technological advancements with a simplistic and sleek form, the structure measuring only 11.6cm in diameter, resulting in minimalism, creating a perfect harmony.

Vine Spot is a beautiful example of how Artemide has leaned into contemporary advancements; the technological complexity is perfectly encapsulated in a simple form. The uninterrupted line created by Vine plays the role of base, stem, and diffuser. Within this silhouette, placed in the head of the lamp, is an integrated LED light source that is evenly distributed onto the area below. The adjustability of Vine allows you to direct this illumination to where you need it most.

Please Note: This wall light utilises a cable & plug so must be installed near a socket.
