PRODUCT DESCRIPTION

Designer: Tom Dixon

Tom Dixon Bell LED Portable Lamp

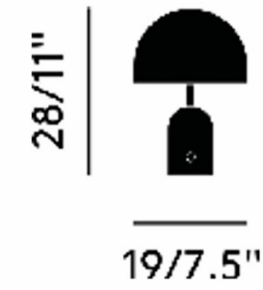

The new Tom Dixon Bell Portable Lamp is the epitome of reductionism, a beautiful and minimalistic lighting solution. The inspiration came from vintage cars, clearly represented in the curved shade of the Bell Portable LED Lamp, which encloses a frosted diffuser. The result is a soft light emission, directed downwards to illuminate the surface below. Thanks to the integrated dimmer, which is located on the base of the lamp, you can easily personalise the light output to suit your environment and generate the perfect ambience for your needs.

The reflective surface of the Tom Dixon Bell Portable allows the lamp to take on a chameleon-like effect, mirroring the characteristics of its surroundings. This makes it easy for the lamp to adapt to a range of contemporary settings. This portable lighting solution can be utilised in residential and commercial settings but is exceptionally stunning in larger spaces in the hospitality sector. For example, tables in restaurants and on countertops in bars.

Operating Time: approx 7-9 hours
Charging Time: approx 5 hours

PRODUCT SPECIFICATION

Light Source:	3W, 3000K, 160 Lumens
IP Code:	44
Dimming:	Integrated dimmer on the product.
Dimensions:	Height: 28cm Width: 19cm Charger Cable Length: 200cm
