PRODUCT DESCRIPTION

Designer: Studio Shulab

KDLN Motus LED Pendant

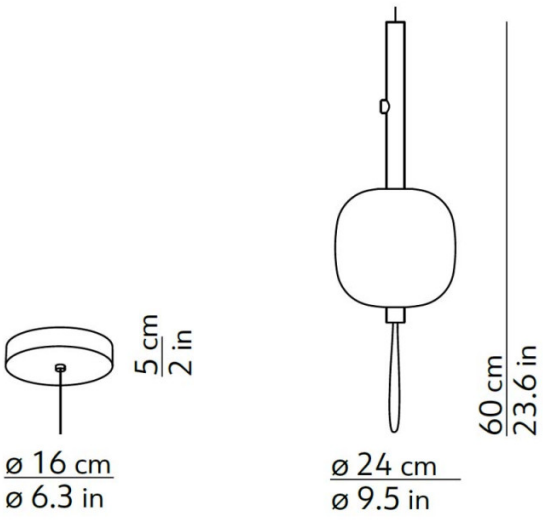

Designed by Studio Shulab for KDLN, the Motus LED Pendant is an easily adaptable lighting solution. It offers complete freedom to the user, boasting an opal glass diffuser, which can be manoeuvred to varying heights by sliding it along the power cord. With a single simple movement, the light source can be positioned anywhere along the cable. The glass diffuser provides soft and ambient light, which is evenly diffused across the room.

The KDLN Motus LED Pendant is available in three finishes, allowing it to blend into a range of interiors. The pendant creates a striking display in living areas, kitchens and dining rooms, and can make a statement when installed as a cluster. In commercial environments, the Motus offers a soft ambience for hospitality and retail settings, particularly suited to cafes, restaurants, hotel rooms, and boutiques.

Please Note: The Motus in Black and Red includes a black cable, whereas the White includes a white cable.
