PRODUCT DESCRIPTION

Designer: Rafa Alonso

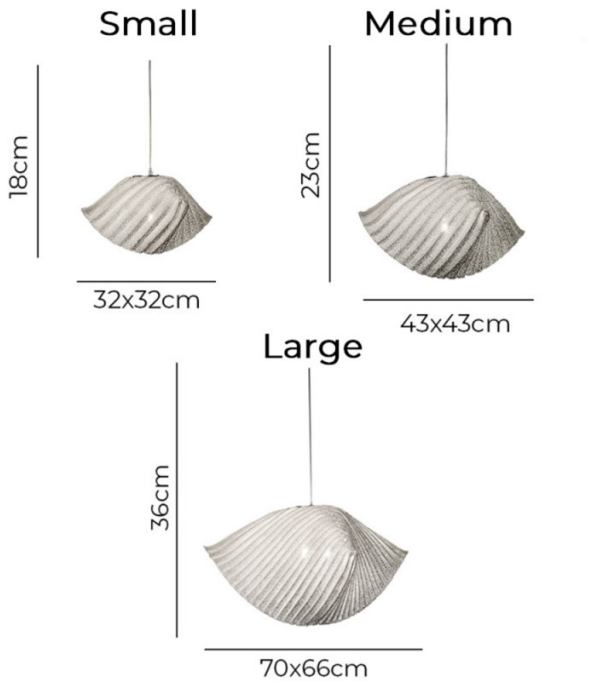

a-emotional light Lea Pendant

The a-emotional light Lea pendant, designed by Rafa Alonso, combines experimentation and handcrafted art. This design is a poetic work of art by Alonso; created for a space where his students could dream and be inspired. According to the designer, Lea represents a metaphor for how his students view their teacher: a light guiding them and showing them the way.

The Lea Pendant is created using stainless steel mesh to create the intricate shade. This patented mesh allows the structure to take on an organic-looking shape whilst being durable and easy to clean with a damp cloth. As each shade is handmade, the curves and folds will vary slightly from piece to piece, ensuring you have a truly unique pendant. The Lea Pendant can be installed individually or mixed with the various available sizes and installed in clusters to create a stunning visual display. The Lea emits a soft diffused light and creates a warm and calming ambiance in any space.
