PRODUCT DESCRIPTION

Designer: Lee Broom

Lee Broom Vesper LED Suspension

Lee Broom found inspiration in the sharp geometric lines of brutalist sculptures and cathedral lighting with the Vesper LED Suspension, which he designed in 2022. The design explores the themes of balance and, thanks to the thin cables, appears to be floating mid-air. Vesper boasts a collection of rectangular shapes, with sharp edges that are softened by the various opal glass light sources, perfect for larger environments this pendant is guaranteed to catch your eye. The multiple LED light sources produce a warm and atmospheric glow, creating an inviting ambience. Lee Broom Vesper is crafted from extruded aluminium and is available in either an anodized gold or silver finish.

This suspension is a beautiful combination of modern and traditional design, resulting in a bold lighting solution that can adapt to contemporary and classic interiors. Although Vesper can make a grand statement in your home it is often utilised in commercial settings, no matter which size you choose the Vesper LED Suspension will make a statement in entryways, above staircases, in hotel lobbies, large restaurants, bars and galleries.
