PRODUCT DESCRIPTION

Designer: Cenlitrosmetrocadrado

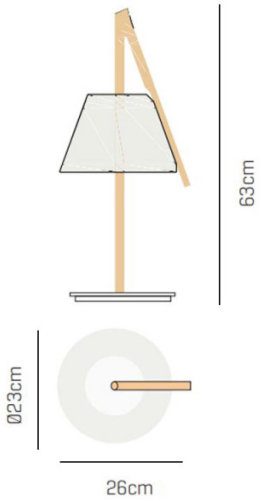

a-emotional light Cambo LED Table Lamp

The Cambo LED Table Lamp was designed by Cenlitrosmetrocadrado studio, combining elegant and innovative design with Galician tradition. The word Cambo (of Galician origin) refers to a wooden piece with a hook at one end, a handcrafted element that has been incorporated into the structure of this lamp. The design represents nature and the beech wood frame was inspired by the growth of plants and how they branch out. Cambo's beech wood frame is coated with a water-based varnish in order to preserve the material's natural form

a-emotional light Cambo LED Table Lamp carries an LED light source which is diffused through a stainless steel mesh shade. This shade is available in either a black or white painted finish. The result is a functional but glare-free illumination, perfect for lounge areas, bedrooms, offices and larger commercial spaces. The Cambo Table Lamp features an integrated touch dimmer which allows you to personalise the light output and generate your desired ambience.
