PRODUCT DESCRIPTION

Designer: Joana Bover

Bover Roda LED Ceiling / Wall Light

The Bover Roda Ceiling/Wall Light is a contemporary lighting solution that boasts a futuristic cylindrical structure. The large ring diffuser houses a continuous circle of LEDs that are diffused through a ribbon shade, emitting a warm, filtered luminance. The ribbon shade is available in either white or cream, providing two varying colour temperatures when illuminated.

Roda was designed by Joana Bover and is a perfect addition to large modern residential spaces or commercial environments. Available in three different sizes, Roda can be displayed as an individual lighting solution or grouped together in larger spaces to create a unique installation. Able to provide a touch of contemporary elegance in bedrooms, hallways, restaurants/dining areas, shopping centres and hotel lobbies.
