PRODUCT DESCRIPTION

Designer: Jordi Canudas

**Marset Dipping Light LED Ceiling /
Wall Light**

The Marset Dipping Light aims to fascinate its audience; the ceiling/wall lamp boasts a spherical diffuser that is available in a range of vibrant finishes. Designed by Jordi Canudas, this lighting solution was the result of his experimentation with paint. Canudas dipped a lit bulb into paint several times to see the effects and possibilities. What resulted was a beautiful gradient pattern that features multiple layers of paint, trapping the light and softening its intensity. The paint becomes a screen, colouring the light and giving the glass sphere a texture. Due to the creation process, each Marset Dipping Light is completely unique.

The Marset Dipping Light Ceiling/Wall projects the LED light source across your space, diffusing it through the glass and resulting in a tranquil ambience that is perfect for areas that focus on relaxation. For this reason, this ceiling/wall light is a perfect addition to living areas, bedrooms, bars, restaurants and hotels. This version of the Marset Dipping Light can work as a wall light or a ceiling light, depending on where it is placed. You can choose the finish of your diffuser, providing you with optimal personalisation.

PRODUCT SPECIFICATION

Light Source: 5.68W, 2700K, 645 Lumens

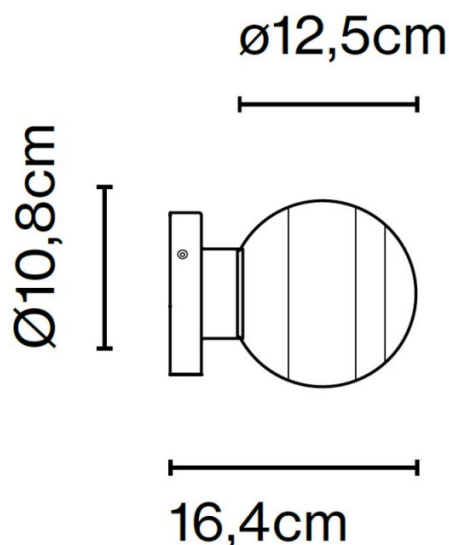

IP Code: 20

Dimming: Dimmable via Triac dimming.

Dimensions: Diffuser: Ø12.5cm

Depth: 16.4cm

Base: Ø10.8cm
