PRODUCT DESCRIPTION

Light Attack Step LED Recessed Wall Light

The Light Attack Step LED Recessed light is a single-emission lighting solution that produces a warm white illumination. Featuring an aluminium structure, this sleek wall light boasts a clear glass diffuser providing high visibility and brightness. The use of removable support makes installation easier and simpler.

The asymmetrical optic projects a light beam with perfectly defined contours; the high visibility Step Light marks out paths and walkways. Thanks to the IP65 rating, the Light Attack Step LED Recessed Wall Light is ideal for outdoor environments, or in a bathroom.

Please Note: The Light Attack Step Recessed Wall Light requires a [350ma remote driver](#) that will need to be ordered separately. Up to 28 lights can be powered using one driver. Please [contact us](#) for further information.
