## PRODUCT DESCRIPTION

**Designer:** John Tree

### HAY Apex Desk Lamp

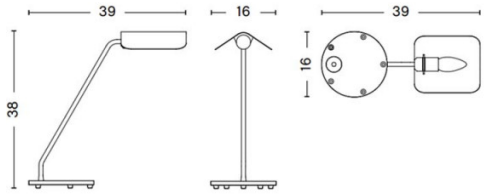

Designed by John Tree and released in 2023, the HAY Apex Desk Lamp is a playful lighting solution that adds a burst of colour to your workspace. The innovative design is available with a choice of a round base or a clip. The round base is crafted from copper, with an angled arm that is designed to lean across your desk for optimal illumination. The clip base can be fixed to almost any horizontal surface and can be easily moved when needed.

The Apex Lamp's slender frame holds a folded shade, inspired by a peaked roofline silhouette. This steel shade is available in a range of bold and colourful finishes, perfect for adding a strong personality and a splash of colour to your home. Additionally, the shade can be rotated 360°, allowing users to direct the light as required. From task lighting beside a workspace to accent light on a bookshelf, the Apex Desk Lamp caters to every space and situation.
