&Tradition Mist AP17 Table Lamp

The innovative Mist AP17 Table Lamp was designed by All the Way to Paris in Copenhagen. The studio drew inspiration from rays of the first morning light shining through the mist to create a sculptural table lamp that brings a touch of nature indoors. This modern take on the classic globe light silhouette blends seamlessly into modern spaces for an added sense of sophistication.

The Mist AP17 Table Lamp features an asymmetrical opal shade that appears to balance elegantly on top of a cylindrical marble base. The shade is formed from mouth-blown glass, while the base is created from Forest Green or Warm Grey marble – a bold contrast of materials for a striking visual effect. When illuminated, the opal glass diffuses light into a warm and comfortable light, perfect for adding a cosy atmosphere to a bedroom, living room, or reading nook. Display with other pieces from the **Mist Collection** for a cohesive theme throughout the home that adds a sense of calm and balance.
