&Tradition Mist Pendant AP16

The Mist AP16 was inspired by nature, evoking rays of morning sunlight shining through the mist. The large oval shade is expertly mouth-blown to form its organic-looking, lightweight form that, when suspended, appears to float in midair. The AP16 is designed by All the Way to Paris, a studio that aims to bring personal characteristics to every design. This is beautifully reflected in the Mist AP16 Pendant, which brings a touch of nature into any home.

The elegant silhouette of the AP16 gives the pendant a sculptural presence, even when not in use. When illuminated, the opal glass diffuses light into a warm, glare-free glow that adds a sense of depth to the room without seeming too harsh. Hang a single pendant above a table for added ambience and visual harmony, or, in larger spaces, create striking clusters of pendants from the **Mist Collection.**
