Le Klint Bouquet Floor Lamp

The Bouquet floor lamp was designed by Danish designer Sinja Svarrer Damkjær. While on a study trip in Italy, she observed flower merchants at a local market, fascinated by the way tied tulips would sway in the wind. This was the inspiration behind the Bouquet floor lamp. The white, pleated shade references the flower head while the curved frame mimics the natural arch of the stem. The floor lamp is available with a plastic foil shade or a paper shade. The plastic foil shade is fire-retardant and UV-resistant. The paper shade will patinate over time, developing a golden hue to its white colour.

The Bouquet's arched stem is perfectly angled for reading or writing in a study. The pleated shade gently diffuses light into a warm glow that surrounds the shade, perfect for adding ambient lighting to an office or living room. Display with a pendant from the **Bouquet Collection** to create a harmonious theme and bring a sense of balance to the space.
