The Le Klint Model 328 Floor Lamp

The Le Klint Model 328 Floor Lamp was created by French designer Aurelien Barbry. The sophisticated-looking lamp features an oak frame, pleated shade, and ornate brass detailing. Free from any unnecessary clutter, the 328 floor lamp has a sleek profile. The classic conical shape of the shade gives the lamp a classic aesthetic, while the brass detailing adds a modern touch – an effective detail that allows the lamp to complement both classic and contemporary interiors.

The Model 328 Floor Lamp comes with a choice of a light oak or smoked oak frame. The pleated shade is available in either plastic foil or paper. The plastic foil is Le Klint's standard material and has fire-retardant and UV-resistant properties. The paper is made in Germany following the company's high standards. Over time, the paper will patinate and develop a golden hue. The 328 offers downward light, ideal for a reading light beside a sofa, and creates an inviting atmosphere through its warm and diffused light. Display with the **328 table lamp** to create a sense of balance in the room.
