Oluce Calamaio LED Table Lamp

The Oluce Calamaio LED Table Lamp is a masterclass in functional design, offering precise illumination and adjustable positioning. Created by Cervellieri, Di Lorenzo, and Montini in 2023, this desk lamp features a pair of sleek cylindrical stems connected to a spherical joint that allows for 360-degree rotation. The adjustable head, mounted on a pivot, directs the LED light beam exactly where it is needed, making it an excellent choice for workspaces, studies, or reading nooks. With its integrated LED source, the Calamaio provides energy-efficient, warm light with a 2700K colour temperature, ensuring both comfort and clarity.

Available in three bold, glossy finishes, scarlet red, mustard yellow, and satin black nickel, the Calamaio brings a vibrant, contemporary touch to its surroundings. The lamp's lightweight design and intuitive adjustability encourage interaction, making it as engaging as it is functional. Ideal for modern interiors, this task light is a perfect fusion of striking aesthetics and versatile usability.
