Arturo Alvarez Bold LED Wall Lamp

The Arturo Alvarez Bold LED Wall Lamp was designed with a striking shape in mind, the intersection of an orb and an oval. This design allows for a smooth and natural transition between the two shapes. With its distinctive personality, Bold is a great addition to any space, whether it be a home or a contract space. The lamp is crafted from triple opal glass and aluminium for durability and style.

Design Studio, Le Mamba, combine beauty, simplicity, and emotion in their artwork. Their earlier works were inspired by nature whereas their latest pieces explore more abstract ideas and human communication. The Wall Light is available in a white opal glass finish with a black base.
