PRODUCT DESCRIPTION

Designer: Gianfranco Frattini

Gubi Aspide LED Table Lamp

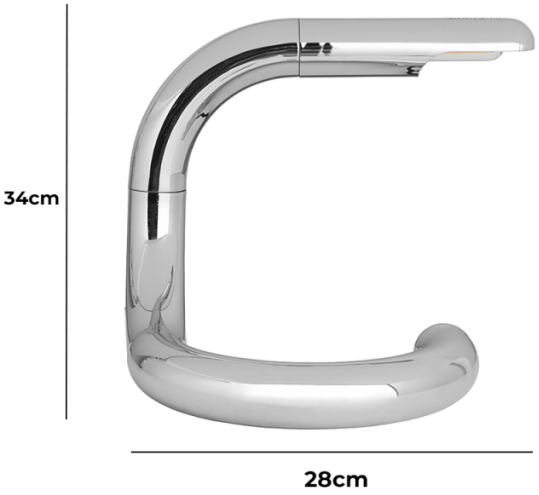

Designed by Gianfranco Frattini in 1970, the Gubi Aspide LED Table Lamp is a striking combination of functionality and artistry. Inspired by the sinuous shape of a snake, the Aspide lamp is both an innovative lighting solution and a bold design statement. With a body and neck that can rotate 350°, it offers unparalleled flexibility, making it suitable for focused task lighting or creating a softer, ambient glow by directing the light toward a wall.

Finished in gleaming chrome, the Aspide's jewel-like surface enhances its luminous output and adds a sense of refinement to any space. Built with a stable counterweight to prevent tipping, this lamp is as practical as it is elegant.

Whether used in a study, bedroom, or living room, the Aspide is a timeless example of Frattini's genius and a piece that elevates any interior with its captivating presence.

PRODUCT SPECIFICATION
