PRODUCT DESCRIPTION

Designer: Resident Studio

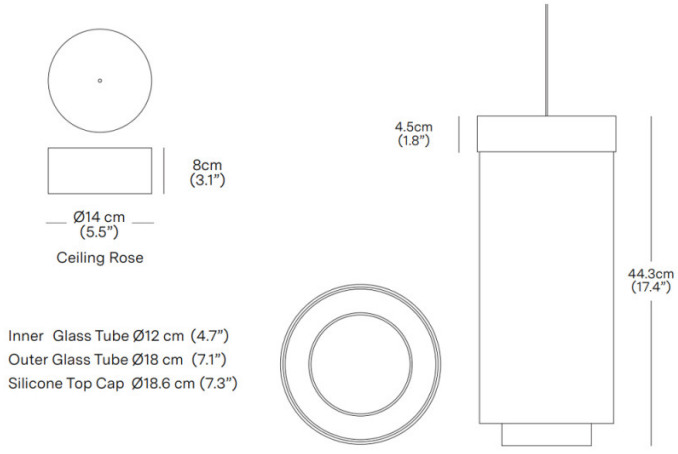

Resident Ghost Pendant

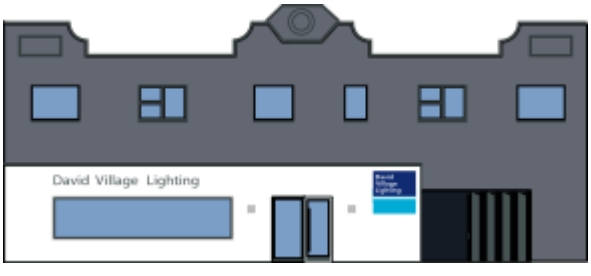

The Resident Ghost Pendant, designed in 2022 by Resident Studio, exemplifies minimalist elegance and innovative design. Handmade in Auckland, New Zealand, the pendant is crafted from two pristine borosilicate glass tubes, offering a clean and timeless aesthetic. An integrated warm LED light source invisibly illuminates the glass, creating a glowing ring along its lower edges. This unique interplay of light and material results in a delicate yet impactful presence, perfect for lighting spaces below.

Ideal for both residential and commercial settings, the Ghost Pendant can be installed individually or in multiples to suit a variety of interior styles. For a bolder statement, the collection includes a cluster pendant version and a complementary floor lamp. Contact us for more information about custom configurations or further details on the Ghost collection.
