PRODUCT DESCRIPTION

Designer: Phillipe Starck

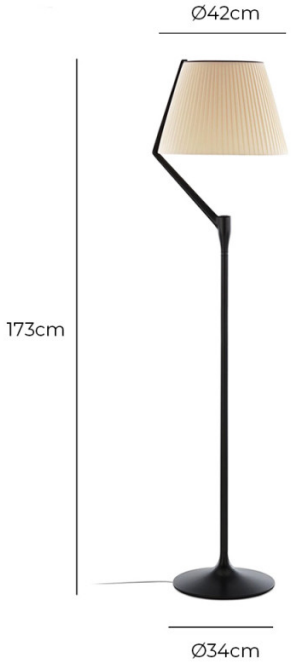

Kartell Angelo Stone LED Floor Lamp

Kartell Angelo Stone LED Floor Lamp was designed by Philippe Starck for Kartell. With a classic shade crafted from a single polycarbonate sheet and covered in a piece of fabric, Angelo Stone's inner LED light source is located at the top of the stem, providing direct light into the shade, illuminating the entirety and giving an even dispersal of light. This minimalistic lighting solution can adapt to various interiors, adding a touch of classic modernism, whether used in residential or commercial interiors.

The Angelo Stone Floor Lamp is available in three stunning metallic finishes: champagne, copper and titanium. This LED lamp makes a perfect reading lamp, and its understated design is a testament to its remarkable craftsmanship. Display the Kartell Angelo Stone LED Floor Lamp independently or alongside the **Angelo Stone Table Lamp** for a cohesive interior design.
