PRODUCT DESCRIPTION

Designer: Franco Albini

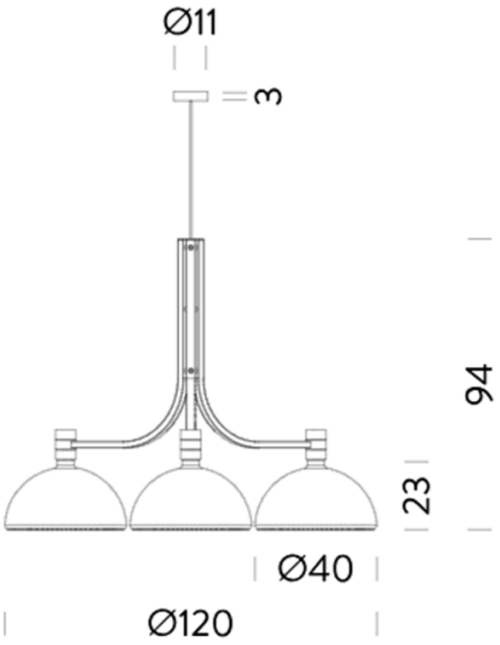

Nemo Lighting Albini AS43C Suspension

The Nemo Lighting Albini AS43C Suspension brings a sculptural presence to interiors, combining three outstretched metal arms with rounded, hand-blown opal white glass shades. Part of Franco Albini's **Albini AM/AS Collection**, designed in 1969, it expresses his rationalist approach through clear lines and carefully considered materials.

When illuminated, the AS43C diffuses light through its three glass shades to create a soft ambient glow. Its generous 120cm diameter makes it a striking choice above a dining table or as a centrepiece in a spacious living area. Display it individually or pair it with other pieces from the AM/AS Collection for a cohesive lighting scheme that carries the same elegant design language throughout the home.
