LYFA Memoir Ceiling Light

Designed by GamFratesi, the LYFA Memoir Ceiling Light is an elegant lighting solution for contemporary interiors. The Memoir Ceiling Light consists of a multi-layered opal glass diffuser, fitted to an aluminium structure, and the contrast between these two materials results in a bold silhouette that resembles a luminous sculpture. Thanks to the thickness of the three-layered opalised glass diffuser, Memoir radiates a pleasant and uniform illumination. This contemporary lighting solution by LYFA produces a cosy and romantic downlight, proving you do not have to diminish style for functionality.

LYFA Memoir Ceiling is available in two sleek finish options (Brass or Black) as well as allowing you the choice between a singular light source or a larger design that features three diffusers. LYFA Memoir One is ideal for smaller spaces such as hallways, staircases or storage spaces, whereas the Memoir Ceiling 3 makes more of a statement and stands out beautifully in living areas, dining rooms, kitchens or bedrooms.
