LYFA Memoir Pendant

The LYFA Memoir Pendant was designed by GamFratesi, who took inspiration from classic chandeliers but wanted to add a modern twist. The result is a striking but elegant pendant that produces ambient lighting and can adapt to almost any contemporary interior. The Memoir Pendant consists of a three-layered opal glass diffuser with aluminium metal detailing that can be provided in either a brass or a black finish. For the brass finish, a white cable is supplied, whereas the black finish comes fitted with a black cable. As a result of the thickness of the layered opalised glass, LYFA Memoir emits a pleasant light that can fill up your space with a burst of downward illumination while also establishing an intimate and ambient atmosphere.

This sophisticated pendant light by LYFA offers a choice between two sizes: either the Memoir 1 Pendant which boasts a singular light source or the Memoir 2 Pendant with two light sources side by side. Both size options offer soft functional lighting for living areas, dining spaces, reading nooks, stairwells or even suspended above bedside tables.
