PRODUCT DESCRIPTION

Designer: Konstantin Grcic

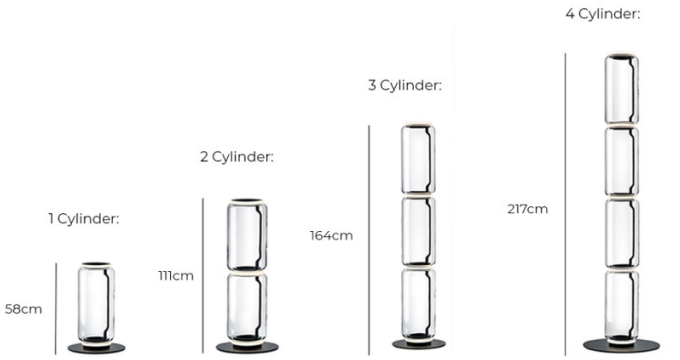

Flos Noctambule High Cylinder LED Floor Lamp

The Flos Noctambule High Cylinder LED Floor Lamp was designed by Konstantin Grcic in 2019 and utilises an elegant silhouette and high-quality materials. Noctambule is made up of a series of jar-shaped glass shades that are stacked on top of each other. These components interconnect with each other and can reach a height of 217cm. The transparent, blown glass cylindrical structure is attached to a die-cast aluminium base with internal hydroformed steel arms and injection moulded optical opal silicone outer ring diffusers.

The Noctabmbule Floor Lamp is easily dimmable via an in-line dimmer on the cable, allowing you to easily personalise the lighting output. The light intensity can be amended by 10% to 100% in either direction. Available in four sizes, this modern floor lamp is a striking addition to entryways, lobbies, dining areas, hotels, restaurants and bars.
