PRODUCT DESCRIPTION

Designer: Nahtrang Studio

Axolight Paralela LED Wall Lamp

Axolight Paralela LED Wall Lamp was designed by Nahtrang Studio, which was founded by Daniel Vila and Ester Pujol in Barcelona, Spain. The design duo understands the importance of lighting in a space, and the power it has to change moods and modify our biorhythms. The lamp features a deceptively simple-looking profile, blending elegant design with technological innovation. The wall lamp is available with one or two borosilicate glass cylinders, connected by Nylon PA12 joints to create a sense of weightlessness.

When illuminated, the glass cylinders diffuse light into a soft glow that surrounds the lamp, bathing the wall in light. This ambient glow creates a pleasant atmosphere in any room, perfect for lounge areas, dining rooms or hallways. In commercial settings, the Paralela Wall Light is ideally placed in galleries, lobbies, or contemporary hospitality settings for functional lighting that adds a welcoming ambience.

The Paralela Wall Lamp is available in five finishes: White, Greige, Earth Red, Pine Green, and Black. Contact us for more information and pricing.
