## PRODUCT DESCRIPTION

**Designer:** Pablo Studio

### Pablo Swell XL Pendant

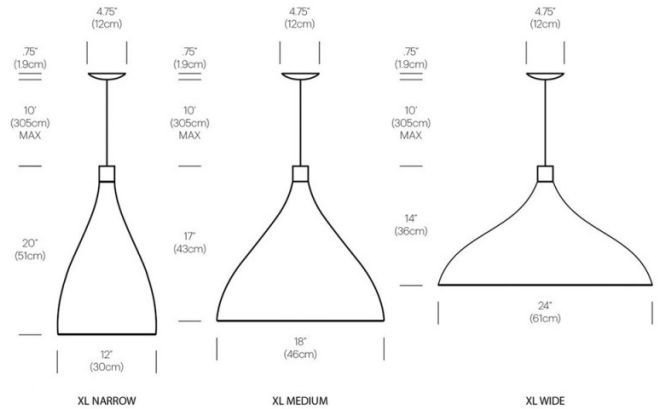

Pablo Swell XL Pendant was designed by Pablo Studios. The three modular pendants have pure outlines. All pendants have a brass finish on the inside of the shade which allows the light to bounce off the sides, creating a golden glow. Each pendant has a hand-crafted aluminium shade which brings life to any space and can be hung vertically or horizontally.

Pablo Swell XL Pendant can be hung alone or as a cluster above a table or island in a kitchen. This light can be used in both residential and commercial settings. This versatile pendant is available in three different sizes and with three different exterior colours: brass, black and white. The XL Pendant is also available in a standard size: **Swell Pendant**.

Swell's modular system also allows a flowing string of lamps to connect to a singular power source. For more information on how the pendants can be connected and prices, please **contact us**.
