PRODUCT DESCRIPTION

Designer: Teresa Sapey + Partners

a-emotional light Blossom LED Table Lamp

The Blossom LED Table Lamp was designed by Teresa Sapey + Partners. Sapey works with a core philosophy of “designing spaces with feelings.” Their goal is to create spaces that are not only functional but fill users with emotion. This is reflected in the Blossom Table Lamp. Its elegant design appears delicate, and its asymmetrical shape and hue changes depending on the observer's point of view. The form is composed of sheets of curved steel mesh encapsulating the light source in the centre.

The Blossom LED Table Lamp is available in two finishes, white and multicoloured. The steel mesh filters the light and creates a warm glow, making this lamp perfect for adding ambient light to a bedroom or living room. They can be displayed individually or as multiples to add a warm, ambient glow to any interior.

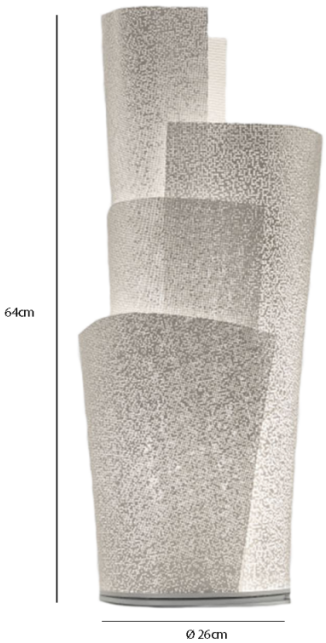

PRODUCT SPECIFICATION

Light Source: 7W, 2700K, 850 Lumens
