Lodes Hover LED Table Lamp

The Hover LED Table Lamp by YOY Design Studio is a unique lighting solution created for Lodes. It is characterised by the optical illusion created by its silhouette. The lampshade appears to float mid-air, connected by a single cable that runs through the stem and out of the other end. This illusion adds a bold personality to the design and was the inspiration for the lamp's name. The Hover Table Lamp encourages user interaction. A dimmer at the top of the stem allows users to modulate the intensity of the light with ease for personalised light that suits any environment.

Combining two contrasting materials, Hover features a metal structure and a softer paper shade made from a special compound of paper and polymer film. This shade diffuses the LED light source, resulting in a warm glow that creates a peaceful ambience. The Lodes Hover LED Table Lamp is intriguing and adds a unique element to your space. Add soft, welcoming light to a bedside, reading nook, or beside a sofa, or display with the **Hover Floor Lamp** to create a cohesive theme in the room.

PRODUCT SPECIFICATION

Light Source:	6.5W, 2700K, 1000 Lumens
IP Code:	20
Dimming:	Integrated dimmer on the product.
Dimensions:	Shade: Ø27cm Shade Height: 19.3cm Height: 51.5cm Base: Ø14cm
