PRODUCT DESCRIPTION

Designer: Bert Frank Design Team

Bert Frank Shear Wall Light

Designed by their in-house team, the Bert Frank Shear Wall Light can adapt to almost any contemporary interior, featuring a unique silhouette and a timeless colour palette. One of the brand's earliest releases and one of their most popular range of lights, the Shear Wall Light drew inspiration from the style of the 1930s and is the perfect way to add timeless elegance to your interior design.

The Bert Frank Shear Wall Light is crafted from brass and turned metal, providing the option between a black or white shade with warm brass details. A brushed finish on the inner shade produces a soft, warm light, which can be easily dimmed to suit your preferred ambience, whilst the adjustable arms allow you to personalise the height, reach and angle of the wall lamp.

The Shear Wall Light can also be provided with a satin nickel or dark bronze structure, please contact us for more information and pricing.
