PRODUCT DESCRIPTION

Designer: Arturo Alvarez

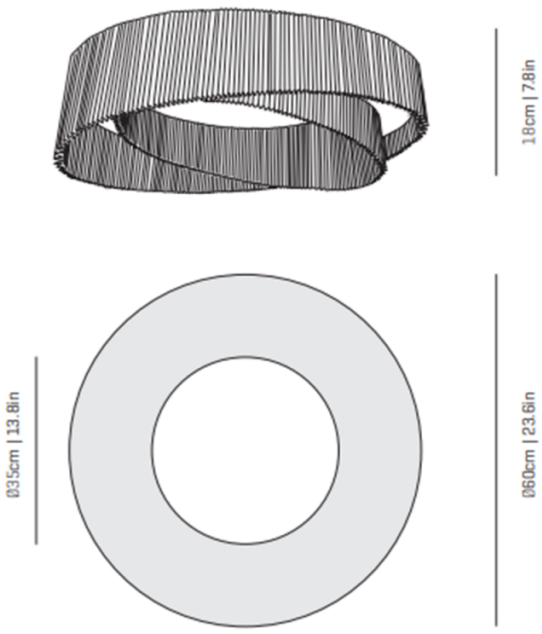

a-emotional light Anel An05 LED Ceiling Light

a-emotional light Anel An05 Ceiling Light was designed by Arturo Alvarez, an award-winning, self-taught Spanish designer. Anel An05 has been built using Alvarez's signature painted stainless steel mesh, SIMETECH®, which allows light to trickle out of the side as well as downward. SIMETECH® is a stainless steel and silicone mesh that is durable and easy to keep clean with a damp cloth. The light source is enclosed by two concentric circle shades, which express a sleek element. Ideal for a living room or lounge, the Anel disperses an even light across the floors and walls of the surrounding area.

Anel An05 Ceiling Light can be exhibited in residential and commercial settings. Anel An05 ceiling light is also available in a pendant version: **Anel An04 Pendant** which can be paired together to create a satisfying contemporary display.
