PRODUCT DESCRIPTION

Designer: S.R. Cornelissen

Artemide Architectural Tagora LED Suspension

Tagora Suspension delivers precise downlight from a clean cylinder in four diameters. Size 80 and 270 models provide controlled spot distributions for task or accent, while the larger 570 and 970 versions add a diffuser for broad, comfortable ambient light. Two-tone exterior and interior finishes let you align the visual temperature and character to the scheme.

Specify 3000K or 4000K with DALI or non-dimmable drivers by code. Pure Integralis models add APP compatibility and a dedicated spectrum for specific use cases. The adjustable 200cm steel suspensions simplify on-site leveling over islands, counters and tables.

As the official UK distributor, we can support you with the Artemide configurator and specification. Contact us at artemide@davidvillagelighting.co.uk.

PRODUCT SPECIFICATION

Light Source: Available in 3000K or 4000K colour temperature. Wattage and lumen output vary by luminaire type.
