PRODUCT DESCRIPTION

Designer: Francesca De Giorgi

Axolight Salina LED Pendant

The Axolight Salina LED Pendant is an elegant and seemingly lightweight lighting solution, that can be used in both interior and exterior settings thanks to an IP55 rating. Designed by Francesca De Giorgi, Salina is created from a square of Kvadrat fabric folded in the corners by 4 pieces which give it a concave shape. The fabric is one moment tense, one moment free in a balance of straight lines and curves that make it move, a play of shadows and light that paint it like a watercolour.

The Axolight Salina generates a cosy and inviting atmosphere, producing a soft downlight that is perfect for use above coffee tables, dining tables and on outdoor porches and decking. The design is equipped with dim-to-warm technology, allowing you to decrease and increase the colour temperature through the dimming system - further enhancing your ability to personalise your ambience.

Please Note: Dali dimming is available upon request, please contact us for more information and pricing.

PRODUCT SPECIFICATION

Light Source:	8.6W, 2500K-4100K, 583 Lumens
IP Code:	55
Dimming:	Dimmable via 1-10v dimming systems. Please consult your electrician, additional wiring may be required on-site.
