PRODUCT DESCRIPTION

Designer: Mario Alessiani

Axolight Float LED Portable Table Lamp

The Axolight Float LED Table Lamp is a portable lighting solution, featuring the iconic rounded Float lamp head and a slender metal structure, the head of the lamp is removed from the structure to be easily charged and then placed back atop the stand when ready to be used. The integrated LED light source is projected downwards onto the space below, creating a halo-like glow on the table or other surface it is placed on and making it perfect for dining spaces whether in your home or as an al fresco alternative in the summer. This lamp head also features a 5-step touch dimmer, allowing you not easily adjust the lighting output and create your desired ambience. Thanks to the IP55 rating, the Float can be used in both interior and exterior settings, allowing you to easily move it from room to room as you desire.

The Float Table Lamp comes supplied with all of the installation features of the [multifunctional lamp](#) as well as the steel pedestal for the table lamp in a matching colour to the shade. The Axolight Float Portable Table Lamp is available in a choice of 5 earthly colours; black, white, blue, concrete green and mauve dust. The black and concrete green lamps come with a black colour charging cable. The white, mauve dust and blue are paired with a white cable. Each shade has a plastic disk on the top surface of the shade - black for the black shade, white for the white, blue and mauve dust shades, and grey for the concrete green.

Float offers over 9 hours of autonomy and can be fully charged within 4 hours via a standard USB cable. Furthermore, the battery of the Float lights is replaceable while it provides over 500 cycles of battery life, you can always replace the battery at the end of its life cycle.
