PRODUCT DESCRIPTION

Designer: Jaime Hayon

Passepartout JH12 LED Ceiling/Wall Light by &Tradition

Brand New, boxed in original packaging.

6 x Bronzed Brass Available.

10 x Gold Available.

A part of the [&Tradition Passepartout collection](#), the Passepartout JH12 LED ceiling/wall Light is a versatile and stylish light that is suitable for a wide variety of settings. Designer Jaime Hayon teamed up with &Tradition to produce a collection of wall/ceiling lights that are both functional and chic, a lamp that will flawlessly light the room without being an imposition on the interior. Hayon has more than achieved this with the Passepartout JH12 wall/ceiling light, as its wide diffused shade produces an effective yet calm light and the smooth lines of the design make it contemporary and sleek.

The JH12 ceiling/wall light is available in luxurious gold or bronzed brass finish, giving you two choices for your space that still won't encroach on the interior design despite being eye-catching. This wall/ceiling light also comes with a fitted LED light, allowing for a steady, warm glow that is both energy saving and long-lasting. Whether you want to line the walls of your corridor, or create an intriguing light feature on your dining room wall, the Passepartout JH12 wall/ceiling light is the perfect choice. Mix and match with others from the collection to create a feature that is inspiring and functional.

All Passepartout lights are now set up as dim-to-warm, meaning that as you dim the light, the colour temperature is gradually reduced to a warmer colour.
