PRODUCT DESCRIPTION

Designer: Bertjan Pot

Moool Heracleum III Small Suspension

**Brand New, boxed in original packaging.
2 x Copper available.**

The Moool Heracleum III is a larger version of the chandelier, inspired by the plant 'heracleum', also known as hogweed and cow parsnip, with its arms with clusters of petals and flowers on the end of each branching stem. With integrated LEDs, the Heracleum III emits a magical, almost twinkly light, bathing surrounding areas in a warm glow.

The 'branches' of Moool's Heracleum chandelier are created by using the technique of coating conductive layers, making the arms look twig-like and expressing the natural form of the light. These are also bendable, meaning you can twist and rotate the LED lights as desired. The Moool Heracleum III can be edited due to the 'leaves' being adjustable via rotation around the stem and the large version is ideal for bigger spaces which require a truly magnificent display of light.

The [Heracleum Collection](#) includes multiple versions of the pendant lamp including an adaptable endless version and circular version known as The Big O.

PRODUCT SPECIFICATION

Light Source:	16W, 2600K, 1180 Lumens
