PRODUCT DESCRIPTION

Designer: Phillipe Starck

Kartell Angelo Stone LED Table Lamp

Kartell Angelo Stone LED Table Lamp was designed by Philippe Starck in 2023. This minimalistic table lamp was designed to reflect its surrounding environment. The Angelo Stone LED light source is located at the top of the stem, providing direct light into the shade, illuminating the entirety and giving an even dispersal of light. A single sheet of polycarbonate plastic mould covered in a piece of fabric is used for the shade and attached to the liquid-painted aluminium stem and base, which is available in three beautiful metallic colourways: champagne, copper and titanium.

Angelo Stone LED Table Lamp is an exquisite lamp designed to add a touch of sophistication and luxury to any space, be it a home or a commercial establishment. Its timeless and versatile design ensures that it blends seamlessly with any decor while providing ample illumination to create a warm and inviting ambience. Whether used as a statement piece or a subtle accent, this lamp is sure to impress.
