### PRODUCT DESCRIPTION

**Designer:** Joana Bover

### Bover Roda Mirror Light

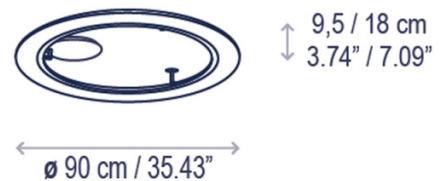

The Bover Roda LED Mirror is distinguished by its large cylindrical silhouette, the outer ring housing an aluminium structure with a continuous circle of LED's. The inner circle consists of a mirror, offering a versatile decorative piece for your home. The Roda Mirror was designed by Joana Bover and despite its large volume, appears weightless. The lighting output is diffused by a ribbon shade, resulting in an even and glare-free illumination that can be dimmed via 1-10V dimming systems - allowing you to personalise your atmosphere and elevate your ambience.

The Roda Mirror is available in two finishes: white or cream, both of which hold the power to adapt to a wide range of contemporary interiors. It is a beautiful addition to hallways, entryways, bedrooms and dressing rooms. It can also be utilised in commercial spaces such as restaurants, reception areas, spas or lounge areas.
