One of the most recognisable designs by Michael Anastassiades Studio, the Ball Light was designed around existing incandescent bulbs of that time, the project began as an exercise to abstract the bulb into a perfectly spherical ball, celebrating its perfect shape by repeating it in metal. The Ball Light is fixed to the wall via a metal bracket and the height is easily adjustable with a maximum length of 170cm.

Please Note the Michael Anastassiades Ball Light comes with and LED E14 lamp and a low-wattage halogen G9 for use with the original porcelain diffuser.
