PRODUCT DESCRIPTION

Designer: Lukas Bazle

New Works Nebra Wall Light

The New Works Nebra Wall Light is a perfect combination of traditional and contemporary design, an interpretation of the ebb and flow of daily modern life. Nebra was designed by Lukas Bazel and encourages users to interact with its form, with just a simple motion the shade's shape can be easily transformed allowing you to sculpt your ambience. Versatile and poetic, this wall lamp can adapt to a variety of interiors, embodying a celebration of light and form.

At the heart of the Nebra's design lies the distinctive Japanese-inspired honeycomb pleat, softly diffusing the illumination and resulting in a warm and inviting glow. For this reason, the wall light is a perfect addition to hallways, bedrooms, reading nooks and dining spaces. Nebra knows exactly how to curate a peaceful atmosphere and is ideal for areas of relaxation - in residential and commercial spaces.
