PRODUCT DESCRIPTION

Designer: Davide Groppi

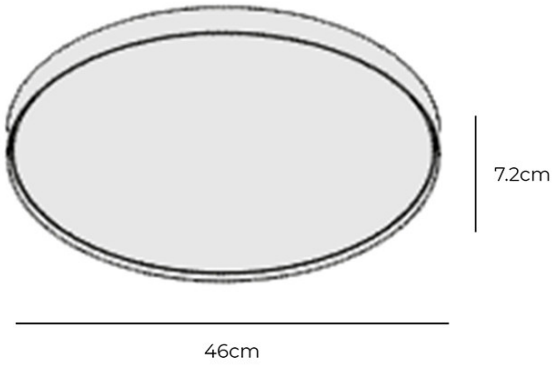

Davide Groppi Aurora LED Ceiling / Wall Light

Davide Groppi designed the Aurora LED Ceiling / Wall Light to perfectly represent diffused light. Against a plain dark wall, Aurora resembles a full moon in the night sky, emitting a cast on surrounding surfaces. The versatile disc-shaped light can be mounted on both ceilings and walls, alone or in a cluster, for an eye-catching visual effect. Thanks to the sleek and minimal aesthetic of Groppi's design, the Aurora can swiftly acclimate to nearly any modern decor.

Aurora LED Ceiling / Wall Light's structure is provided with a diameter of 46cm. Aurora boasts a clear PMMA shade, which allows for even dispersion of warm white light, making this light appropriate for both domestic and corporate settings, such as restaurants.
