Fabbian Plana Table Lamp

Designed by Bellavista & Piccini, the Fabbian Plana Table Lamp is a unique design that makes a statement in contemporary interiors. This decorative lighting solution consists of a concrete base which houses a textured cast glass structure illuminated by an LED light source. The concrete features a sandblasted PMMA pin that fixes it to the glass ensuring a stable lamp that also acts as a piece of art when turned off. The glass offers you the choice between two shapes, allowing you to choose between either a circular or square silhouette, similarly, you can also display them as a pair.

The Fabbian Plana Table Lamp provides a subtle illumination that, thanks to the intricate texture of the glass, results in a unique lighting effect. This contemporary lamp is a great addition to reception areas, hotel lobbies, shop counters or as a luminaire in residential interiors. Plana can add a touch of elegance to bedrooms, living rooms, dining rooms and even hallways or entryways.

The Fabbian Plana Table Lamp is also available with a colour temperature of 3000K upon request. Please contact us for more information and pricing.

PRODUCT SPECIFICATION

Light Source: 9W, 2700K, 590 Lumens

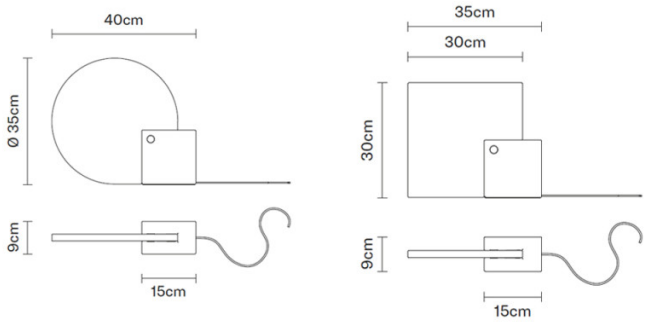

IP Code: 40

Dimming: In-line dimmer included on the cable.

Dimensions:

Spherical:
Height: 35cm
