PRODUCT DESCRIPTION

Designer: Signorotto + Partners

Fabbian Comet Wall Light

A unique lighting solution designed by Signorotto + Partners, the Fabbian Comet Wall Light was released in 2023 and resembles a flying comet. This wall light consists of a spherical blown glass diffuser that evokes the nucleus of a comet and is housed within a U-shaped aluminium lampshade designed to replicate the luminous tail. The result is a contemporary lighting solution that creates the illusion of movement.

The Comet Wall Light is available in 4 industrial finishes (Anthracite, White, Bronze, or Royal Gold) and can be installed in any direction. It is suitable for both public or residential spaces, such as bedrooms, hallways, kitchens, shops, waiting rooms or hotels. The IP40 rating means it can be utilised in more damp environments such as bathrooms. The Fabbian Comet is an exceptional luminaire for contemporary interiors and can be displayed individually or in clusters for a more dramatic installation.
