The Bellhop family began when Edward Barber & Jay Osgerby designed a table lamp for the new London Design Museum. The table version of the Bellhop gives the user ultimate flexibility as a portable lamp - stand it on a bookshelf, adorn a coffee table or even take it outside. The Bellhop portable table lamp by Flos casts an atmospheric pool of light and the portable ability of the lamp version is likened to a modern-day candle.

The Bellhop portable table lamp by Flos has up to 24hrs battery life and is rechargeable with USB-C. A push button on the base provides a 4-step dimming function (0-30-70-100%) to alter the light output as required. The Bellhop also has a battery status indicator positioned under the base, offering maximum versatility without compromising on style.
