PRODUCT DESCRIPTION

Designer: Axolight Lab

Axolight Poses Wall Lighting System

Axolight Poses LED Wall Light System is a geometric lighting system by Axolight Lab, formed from slim linear elements connected by circular junction points. Inspired by the point, line, and plane, the composition uses simple geometric forms to create a distinctive architectural presence across the wall.

The linear elements can be rotated through 359°, allowing the direction of the light to be adjusted during installation. Poses can therefore provide direct outward illumination or indirect light reflected from the surrounding surface, with APPOS01 and APPOS02 offering two standard wall compositions.

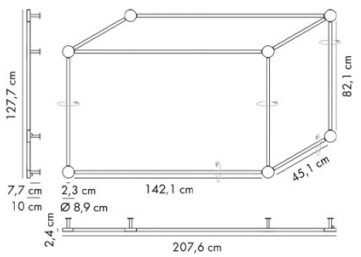

The modular character of Poses allows the system to work across both residential and commercial interiors without losing its clear geometric structure. It is particularly suited to living rooms, hallways, entrance spaces, restaurants, bars, and hotel interiors.

Poses is available in fifteen finishes: White, Green, Greige, Turquoise, Yellow, Water Blue, Salmon, Pine Green, Red, Blue, Raspberry Red, Anthracite Grey, Earth Red, Black and Rust Brown. Contact us to discuss your required configuration, finish, colour temperature, and control requirements.

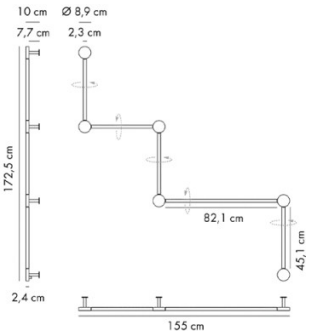

PRODUCT SPECIFICATION

Light Source:	**APPOS02**: 60.2W LED, 2700K/3000K 4471/4968 Lumens **APPOS01**: 189.3W LED, 2700K/3000K 14350/15945 Lumens
IP Code:	20
Dimming:	Available with on/off, 1-10V or DALI control depending on the selected driver. Please consult your electrician regarding driver selection and installation.
Dimensions:	Dependent upon composition. See the specification image for more info.

APPOS01

APPOS02
