PRODUCT DESCRIPTION

Designer: Gabetti & Isola

Axolight Bul-Bo LED Wall Light

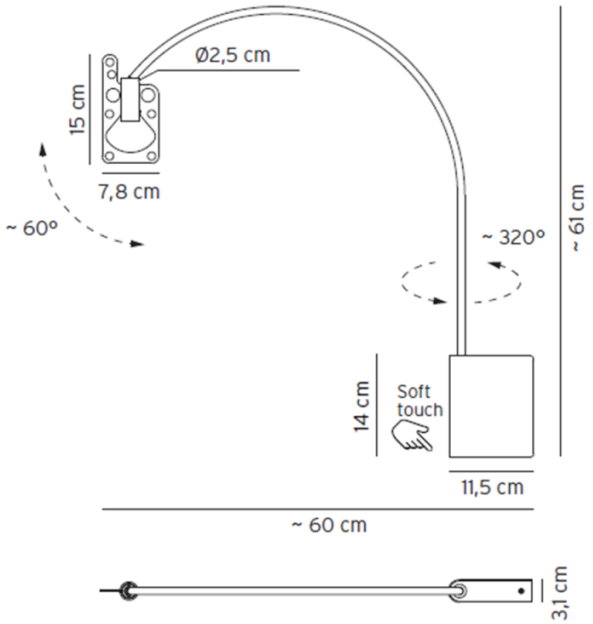

The Bul-Bo LED Wall Light was created by Fabrizio Pellegrino and Lodovico Gabetti in 2021. The lamp is a re-edition of the iconic **Bul-Bo Floor Lamp**, originally designed in the 1960s. The original was heavily influenced by the rebellious times in which it was created, leading to a functional lamp with playful, eccentric qualities. The Bul-Bo Wall Light maintains these iconic properties while introducing modern upgrades.

When lit, the integrated LED casts a bright beam of directed light. This functional lighting is perfect for use as a reading light, installed beside a bed, desk, or in a reading nook. A touch-dimmer on the base allows users to adjust brightness intensity to suit any environment. The Bul-Bo Wall Light's sleek finish complements its timeless aesthetic and adds a touch of luxury to the piece. Install individually or with other pieces from the **Bul-Bo Collection** for a cohesive display that adds a bold and quirky personality to any space.

The Bul-Bo Wall Light is also available in an Intense Black finish. Please Contact us for more information.
